

## PS 85 Wall scanner

## Features & Applications

### *Features*

- Versatile and user-friendly wall scanner to help you avoid damage caused by drilling in the wrong place
- Easier to use – large display, efficient menus and the option to export scan data via SD card
- Upgraded ergonomics – light with large handle to keep the tool firmly in your grip
- Built to last – shock- and dust- resistant to better withstand construction site conditions
- Hilti battery platform – power this wall scanner using the same Li-ion batteries (2.6 and 4.0 Ah) as all your other Hilti 12V cordless tools

### *Applications*

- Locating embedded objects for hit prevention when drilling, coring, cutting or slitting (up to 85 mm depth, depending on material) on the wall
- Estimating the material and size of hidden objects – multiple sensors for rebar, live wires, wooden substructures, metal and plastic pipes
- Equipped to scan through concrete (wet and dry), brick, drywall and tiles
- Locating embedded objects for hit prevention when drilling, coring, cutting or slitting (up to 3-3/8" depth, depending on material) on the wall
